Singapore

## PROFILE

Creative **Civil Engineer and Interior Designer** with expertise in **3D visualization, architectural planning,** and interior design projects, dedicated to delivering functional, **sustainable, and aesthetically pleasing** design solutions. Skilled in combining engineering precision with artistic vision, ensuring innovative concepts are executed seamlessly from design to completion. Passionate about space **optimization, material selection,** and modern design trends, with hands-on experience in project management and client collaboration to bring unique visions to life.

## SKILLS

**Technical:** AutoCAD, Photoshop, SketchUp, 3ds Max, Revit, D5

**Design:** Color Theory, Furniture Design, Landscaping

**Soft Skills :** Project Management, Teamwork, Communication, Teaching

## EXPERIENCE

**Interior Designer** | Esra Irfan Architect, Kozhikode | April 2025 - March 2026

- **Conduct site visits and site assessments,** taking accurate measurements and coordinating design requirements with clients and contractors to ensure feasibility and alignment.
- Develop interior design concepts and detailed layouts using **SketchUp,** with **high-quality visualizations** and walkthroughs produced in **D5 Render.**
- Coordinate with **vendors, suppliers,** and **site teams,** ensuring accurate execution of designs in accordance with **approved drawings, specifications, and timelines.**

**Interior Designer** | Freelance | March 2024 - Present

- 600 sqft Outhouse Design | Easthill, Kozhikode | Developed a comprehensive design for a 600 sqft outhouse, focusing on functionality and aesthetic appeal, tailored to the client's needs.
- 260 sqft Kitchen Interior Design | Malappuram | Crafted a modern and efficient interior design for a 260 sqft kitchen, emphasizing space optimization and contemporary style.

**Faculty** | Dline school of design | October 2024 - April 2025

- Delivered comprehensive lectures on Materials, Finishes, **Interior Design Theory, and Architectural Graphics,** providing students with a strong foundation in both conceptual and technical design principles.
- Led practical workshops and hands-on sessions, guiding students in developing and refining their **architectural drawing and visualization skills.**
- Mentored students on practical applications of design thinking, encouraging creativity, innovation, and attention to detail in project execution.

**Faculty Intern** | Cindrebay School of Design | August 2024 - October 2024

- Conducted lectures on Materials, Finishes, and **Interior Design Elements,** providing students with a strong understanding of core design concepts.
- Led practical sessions in **Architectural Graphics,** training students in technical drawing and visualization techniques.
- Supported student placement coordination and guided students in portfolio development to enhance career opportunities.

## PROJECTS

### PROFESSIONAL PROJECTS

#### Residential Interiors | Musafir Residences 1 & 2

- Developed **semi-luxury urban residential interiors** that merge comfort, elegance, and functionality.
- **Residence 1:** Focused on placemaking with open layouts, refined finishes, and inviting community-oriented spaces such as sit-outs, dining, and family halls. Each bedroom was designed with a unique mood while maintaining consistency in overall luxury appeal.
- **Residence 2:** Designed a modern patio integrating glass walls, marble flooring, skylights, and lush greenery to create a spa-like ambiance. Added elements such as a floating vanity, zen pathways, and seamless indoor-outdoor living transitions.

#### Freelance Project | Madhu Karthika Residence

- Delivered a full-home project featuring a **Japandi minimalism concept**—clean lines, muted tones, and natural textures.
- Created a calm and sophisticated ambiance across living, dining, kitchen, and bedrooms using beige, grey, wood, and black accents.
- Designed large windows, layered lighting, and functional furniture solutions to balance natural brightness with cozy nighttime moods.

#### Minimalistic Bridal Bedroom

- Designed a serene, elegant bridal suite with a beige-gold palette, focusing on intimacy, warmth, and sophistication.
- Used soft textures, muted tones, and minimal furniture to create a tranquil, personalized retreat.
- Incorporated natural wood and subtle gold accents to enhance elegance while preserving a calm atmosphere.

#### Custom Outhouse Design

- Created a multi-functional outdoor living space combining leisure, entertainment, and practicality.
- Spaces included a projector lounge, compact pantry, patio for outdoor grilling, and a modern bath.
- Balanced aesthetics and utility with natural light, efficient space use, and durable materials.
- Delivered layout plans, 3D visuals, and construction detailing to ensure seamless execution.

### ACADEMIC PROJECTS

#### Doctor's Residence

- Developed a Tulum-inspired residence using organic textures, natural finishes, and coastal aesthetics.
- Produced detailed floor plans, elevations, sections, and 3D renders for both residential and consultation areas.
- Designed interiors with rustic wood, woven textures, and spa-like bathrooms to create a calm, earthy retreat.

#### Effect of Needle Shaft on Light Weight Concrete - October 2022 - May 2023

- Structural design research project focusing on material strength optimization.

#### Office & Residential Space Designing - October 2023 - June 2024

- Created multi-use office and residential layouts focusing on space efficiency and ergonomics.

### EDUCATION

**Post Graduate Diploma in Interior Designing** - Cindrebay School of Design, Alagappa University - August 2024

**Bachelor of Civil Engineering** - APJ Abdul Kalam University - August 2023
